

le ventre plus gros  
que les yeux

plus rond  
que tout

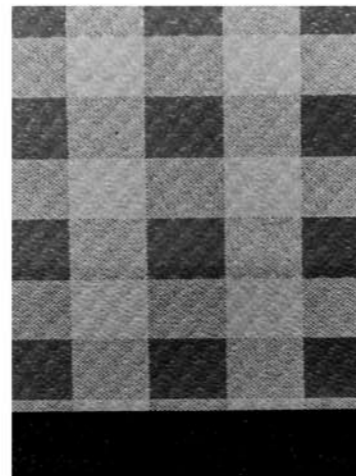

les pâtes ne sentent rien

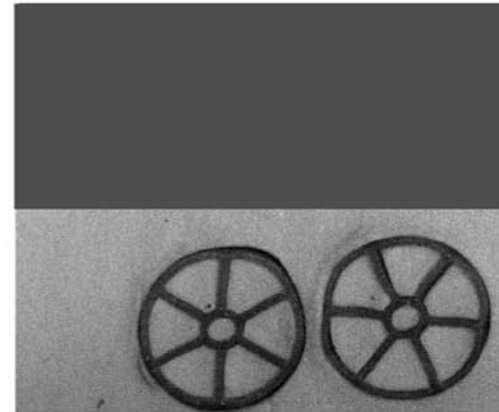

des choses douces au goût  
se réveillent acides  
à la digestion

(respirer tranquillement)

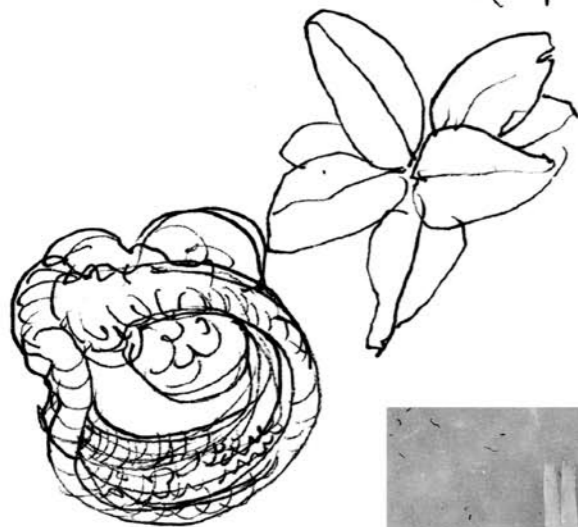

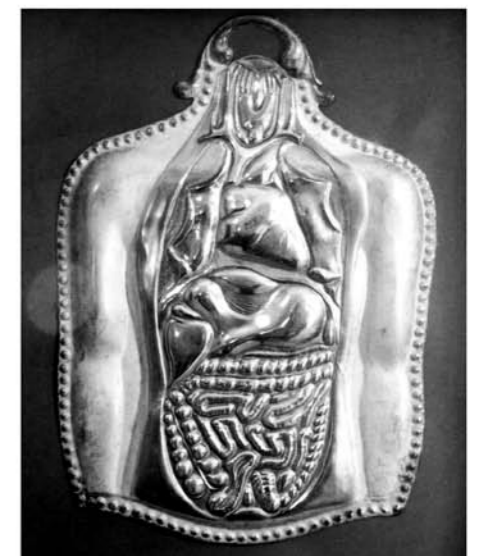

(laisser dissoudre)

mais on les accommode  
c'est

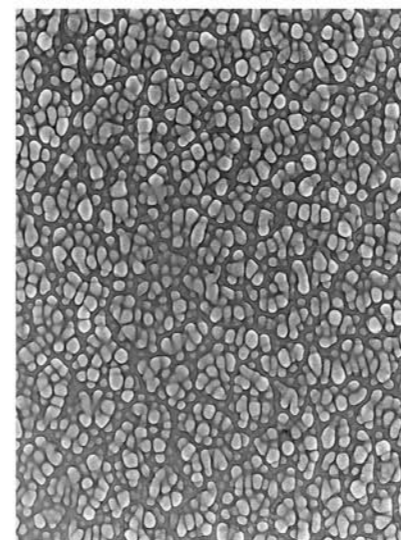

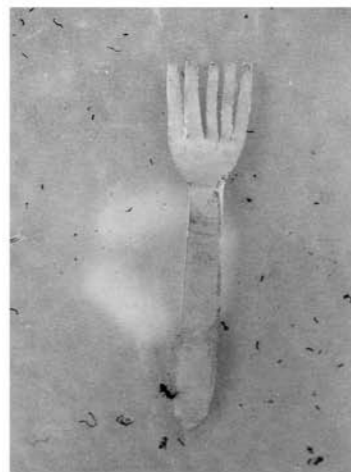

toi par contre  
mon cochon...

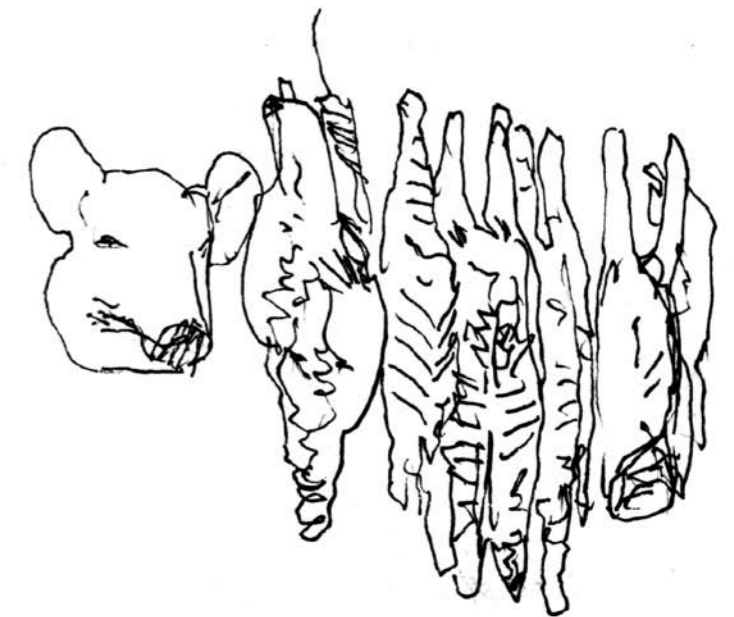

certains  
animaux  
se nourrissent  
d'o d en r

(pourquoi le lapin ne se  
transforme-t-il pas  
en carotte  
lorsqu'il en mange?)

allez  
va prendre une douche

c'est bientôt cuit
